

Hamech Internal Combustion (IC) lift trucks are built for solid performance. Maybury offers Hamech trucks in capacities ranging from 3,000 to 10,000 pounds for cushion tire lift trucks up to 35,000 pounds for pneumatic tire lift trucks.

IC Cushion Tire Lift Trucks

3000 – 5500 Lb. Capacity

Hamech (pronounced Hay-meck), a brand of Crown Equipment Corporation, offers a full selection of high-quality internal combustion lift trucks. The economical MAX50 line of cushion tires lift trucks feature lifting capacities up to 5,500 lbs.

- EPA Tier II compliant K21 industrial engine with high torque at low RPMs for power and fuel efficiency
- Dual floating structure that uses drive-train cushion mounts and suspension compartment mounts to isolate the operator from engine and floor vibration
- Full floating transmission with a high capacity oil cooler for the torque converter, aluminum alloy transmission case for better heat dissipation, and a reliable, dust resistant, double-sealed universal joint design.
- Gas or LPG fuel option

IC Cushion Tire Lift Trucks

5000 – 6500 Lb. Capacity

Hamech lift trucks deliver the high level of quality you've come to expect from all Crown products. Meet your application needs with MBX50 cushion tire lift trucks, featuring:

- Self-adjusting brakes with thicker drums that improve heat resistance in severe duty applications
- Steer axle with integral double-acting, double-ended cylinder, high-capacity kingpin needle bearings, and heavy-duty seals
- Mast with large visibility window, combined with low profile dash display, offers the operator an unrestricted view to the fork tips and surrounding area
- Gas or LPG fuel option

Hamech Internal Combustion (IC) lift trucks are built for solid performance. Maybury offers Hamech trucks in capacities ranging from 3,000 to 10,000 pounds for cushion tire lift trucks up to 35,000 pounds for pneumatic tire lift trucks.

IC Cushion Tire Lift Trucks

8000 – 10,000 Lb. Capacity

Hamech's state-of-the-art facilities and professionally-trained personnel ensure that each lift truck they produce is top-of-the-line. You can expect comfort and economy from Hamech MCX20 cushion tire lift trucks.

- Nissan TB45E industrial engine delivers exceptional power, emission control, and reliable operation for enhanced productivity and fuel efficiency
- Suspension compartment (SC) greatly reduces operator fatigue by isolating the compartment from engine and traveling vibrations
- Swing up engine bonnet and lift out floor plate provide quick access for daily checks and maintenance
- Gas or LPG fuel option

IC Pneumatic Tire Lift Trucks

3000 – 5000 Lb. Capacity

Hamech internal combustion lift trucks provide solid performance and solid value. The MAX50 pneumatic tire line is no exception, including models with great features and excellent value.

- Operator presence system locks out lift, lower, tilt and travel functions when the operator leaves the seat for longer than three seconds
- New low profile dash display – Fuel Gauge, Water Temperature Gauge and Hour Meter
- Self-adjusting brakes with thicker drums improves heat resistance in severe duty applications
- Gas or LPG fuel option

Internal Combustion Lift Trucks

Hamech Internal Combustion (IC) lift trucks are built for solid performance. Maybury offers Hamech trucks in capacities ranging from 3,000 to 10,000 pounds for cushion tire lift trucks up to 35,000 pounds for pneumatic tire lift trucks.

IC Pneumatic Tire Lift Trucks 4000 – 7000 Lb. Capacity

Hamech internal combustion lift trucks are backed by Crown Equipment Corporation's world-class service and support network. The Hamech line includes the reliable and economic MBX50 pneumatic tire series.

- EPA Tier II compliant K21 and K25 industrial engine with high torque at low RPMs for power and fuel efficiency
- Improved steer axle with integral double acting, double-ended cylinder, high capacity king-pin needle bearings, and heavy duty seals
- Mast with large visibility window, combined with low profile dash display, offers the operator an unrestricted view to the fork tips and surrounding area
- Gas, LPG or Diesel fuel options

IC Pneumatic Tire Lift Trucks 8000 – 11,000 Lb. Capacity

Hamech MCX20 internal combustion lift trucks combine the performance, comfort and superior construction you expect from all Crown products. These pneumatic tire lift trucks feature models with capacities ranging from 8000 to 11,000 lbs.

- Nissan TB45E industrial engine delivers exceptional power, emission control, and reliable operation for enhanced productivity and fuel efficiency
- Swing up engine bonnet and lift out floor plate provide quick access for daily checks and maintenance
- Open perforated steps and assist hand grip makes entry and exit easier
- Gas, LPG or Diesel fuel options

Internal Combustion Lift Trucks

Hamech Internal Combustion (IC) lift trucks are built for solid performance. Maybury offers Hamech trucks in capacities ranging from 3,000 to 10,000 pounds for cushion tire lift trucks up to 35,000 pounds for pneumatic tire lift trucks.

IC Pneumatic Tire Lift Trucks

15,400 – 18,000 Lb. Capacity

Hamech's comprehensive selection of internal combustion forklifts meet a wide range of application needs. Boost productivity with powerful and efficient MDX50 series pneumatic tire lift trucks from Hamech.

- Nissan TB45E LPG/Gas and Komatsu S6D102E diesel industrial engines deliver exceptional power, emission control, and reliable operation for enhanced productivity and fuel efficiency
- Full floating operator compartment (HSC) greatly reduces operator fatigue by isolating the compartment from engine and traveling vibrations
- Dash display provides easy to read information to the operator and maintenance personnel
- Gas, LPG or Diesel fuel options

IC Pneumatic Tire Lift Trucks

22,000 – 35,000 Lb. Capacity

Meet your material handling needs with Hamech's high-performance MEX50 lift trucks. These diesel-powered trucks feature pneumatic tires and capacities ranging from 22,000 to 35,000 lbs.

- Wide slip resistant steps and assist hand grip makes entry and exit easier
- Fully Hydrostatic Power Steering
- Deluxe full suspension vinyl seat and operator restraint system with lap belts
