

*Maybury can supply you with Southworth products that provide practical, ergonomic solutions for efficient lifting and positioning, resulting in improved worker productivity and safety.*

### Lift Stackers

Presto Stackers are available in a number of configurations and capacities. Whether it's high-capacity, power-driven, straddle, fork-over counterbalanced or just about any other configuration you can name, we've got the product that's right for you.

#### PowerStak™

The Presto PowerStak™ is a high-performance, fully-powered stacker providing instant flexibility and versatility. Its sleek, stylish design, low overall weight and quiet operation allow the PowerStak to fit nicely into a wide variety of work environments including warehouses, loading docks and retail sales floors.

#### A/C Electric Stackers

This rugged electric lift is ideal for congested and compact work areas. Perfect for all types of lifting or positioning work. Built to withstand the daily rigors of lifting heavy loads. A/C electric stackers feature a 1,000 lb. capacity, 18" load centers and lifting heights from 52" to 130". Comes with a standard 1 HP 115/1/60 motor.

#### Battery Stackers

Featuring a convenient powered lift, these stackers are ideal for a wide range of light- to medium-duty uses. With capacities up to 2,000 lbs., lifting heights from 52" to 78" and adjustable fork widths, these versatile stackers are perfect for your light-duty application.

### Lift Tables

Presto Lifts offers an unmatched selection of lift table styles, configurations and capacities. In addition to our standard product offering, we routinely create custom modified units to suit special requirements.

#### Light-Duty Scissor Lifts

For lifting and positioning of lighter loads, Presto light-duty scissor lifts are the answer. They come in a variety of configurations to suit just about any need. They feature a foot-operated hydraulic pump, a hand-controlled release for lowering, 1/2" steel plate scissor legs and lifetime-lubricated bearings.

#### Scissor Lifts

With 2,000, 4,000 and 6,000 lbs. capacities and a variety of platform sizes, these rugged, dependable scissor lifts are perfect for just about any work positioning or assembly application. You may choose 24", 36" or 48" vertical travel, and supersized 48" x 96" platforms are available on standard lifts.

#### Pneumatic Lifts

These units require no electricity and can be used anywhere that shop air is available. They require less maintenance than conventional scissor lifts, and because there is no hydraulic fluid there is no potential for process contaminations. Pneumatic units are available in Scissor Lift, Heavy-Duty Scissor Lift and Lift & Tilt configurations.
